## NCTC

National Counterterrorism Center

Washington, DC 20511

Christine Abizaid

Christine “Christy” Abizaid was sworn in as the Director of the National Counterterrorism Center on June 29, 2021. She is the eighth Senate-confirmed Director and the first woman to lead the United States’ counterterrorism enterprise.

[nctcpao@nctc.gov](mailto:nctcpao@nctc.gov)

## Federal Bureau of Investigation

National Security Branch

Christopher Wray became the eighth Director of the FBI on August 2, 2017. Mr. Wray was born in New York City. He graduated with a bachelor’s degree from Yale University in 1989 and earned his law degree from Yale Law School in 1992. He clerked for Judge J. Michael Luttig of the U.S. Court of Appeals for the Fourth Circuit. In 1993, Mr. Wray joined the international law firm of King & Spalding LLP, where he spent a total of almost 17 years practicing law in the area of government investigations and white-collar crime.

 human consumption including and not limited to Vaccinations  
 Defendant Donald H. Rumsfeld, Developer of Aspartame and  
 Convicted War Criminal, Kuala Lumpur War Crimes Tribunal  
 2011-12

Definitions: "Vaccinations" include any and all allopathic Vaccinations  
 used in allopathic medicine. Homeopathic Vaccinations used in authentic  
 and licensed homeopathic medicine are not included in the terms of this  
 Indictment.

Allopathic medicine:

[https://www.medicinenet.com/allopathic\\_medicine/definition.htm](https://www.medicinenet.com/allopathic_medicine/definition.htm)

Allopathic medicine refers broadly to medical practice that is also termed  
 Western medicine, evidence-based medicine, or modern medicine.

The term "allopathy" was coined in 1810 by Samuel Hahnemann (1755-  
 1843) to designate the usual practice of medicine (allopathy) as opposed to  
 homeopathy, the system of therapy that he founded. Homeopathy is based  
 on the concept that disease can be treated with minute doses of drugs

thought capable of producing the same symptoms in healthy people as the disease itself. Although allopathic medicine" was rejected by mainstream physicians, it was adopted by alternative medicine advocates to refer pejoratively to conventional medicine.

Homeopathic medicine or homeopathy

<https://www.verywellhealth.com/homeopathic-medicine-description-2249111>

Homeopathic medicine or homeopathy is a form of complementary and alternative medicine that uses very small amounts of natural substances, which in higher amounts would cause a disease. This branch of medicine came into being in the 19th century and was used frequently at the time. Interestingly, the first studies using homeopathic remedies were done on healthy volunteers—similar to many clinical trials done today. While the use of homeopathy has fallen off with the advent of newer conventional treatments, there are over 2000 substances that have been utilized as homeopathic treatments. What exactly is homeopathic medicine, and how is it thought to work? We will look at what the studies say about its

(109) 19

effectiveness, how this compares with traditional medical options, and the possible side effects and risks of these therapies.

Various herbs and oils in bottles and bowls with a mortar and pestle on a table

### The Theory Behind Homeopathic Medicine

The theory behind homeopathic medicine is that "like cures like," and that a substance that causes an illness in a healthy person might cure those symptoms in someone who is ill. It's believed by practitioners of homeopathy that a small amount of the substance which causes a disease will stimulate the body to heal itself. Though this may sound far-fetched, the theory is somewhat analogous to the basis of vaccination in modern day medicine; with immunizations, the exposure to a small amount of a killed or inactivated microbe can result in protection against developing the disease. An example would be using a very dilute solution of coffee to treat insomnia.

Homeopathic medicine is based on the theory that "like cures like."

The other theory underlying homeopathy is that of potentization. It's thought by practitioners of homeopathy that the more dilute an ingredient, the more potent it becomes. The thought is that diluting and agitating an ingredient activates the curative powers of the ingredient, thus enhancing its effect. Potency in homeopathic solutions is indicated by an X or C.

X: For every dilution, one part of an ingredient is mixed with two parts water. For example, a 1X potency would be a solution that is one part ingredient and 9 parts water.

C: Potency may also be described with a C. A 1C solution refers to a solution that is one part ingredient and 99 parts water.

Looking at potentization from a scientific standpoint, many homeopathic remedies may contain very few or no molecules of the ingredient (for example, in a 30C solution). Skeptics have described this as the equivalent of dissolving a tablet of Advil in the ocean and then drinking a few drops. In response, some proponents of homeopathy claim that the molecules of ingredient are not what is important, and rather, the dilution process activates the "vital energy" of the water.

#### Principles of Homeopathy

There are three main principles behind the practice of homeopathic medicine:

The law of similars: The law of similars refers to the "like cures like" theory noted above.

(109) 20

The principle of the single remedy: This principle holds that a single remedy should cover the physical, emotional, and mental symptoms of an illness combined.

The principle of the minimum dose: Only a small amount of substance is first used in a few doses, followed by an infinitesimal amount over time.

#### History

Homeopathy was developed by a German physician, Samuel Hahnemann, in 1807. He treated himself with a small amount of tree bark (cinchona bark) that contains the drug quinine used to treat malaria. When he developed the symptoms of malaria, he came up with his law of "like cures like;" believing that drugs that cause specific symptoms can be used to cure the illnesses that cause those symptoms.

#### Who Prescribes Homeopathic Remedies and Where Are They Available?

Some homeopathic medications are available at health food stores, whereas others are available only through a naturopathic doctor or other specialists in integrative medicine.

#### Scientific Research Looking at Homeopathic Remedies

Results on the effectiveness of homeopathic remedies have been inconsistent, primarily due to the lack of any widespread regulation of the practice. This makes the "dosage" or amount of a homeopathic medicine present in any particular formulation variable.

A 2016 review of the literature evaluated the study design and results of studies involving homeopathic remedies to date. The conclusion was that individualized homeopathy may have small specific treatment effects.<sup>1</sup> It's likely that further "evidence-based" studies will fill in more details on both the safety and efficacy of homeopathic remedies in the future. In contrast, a 2017 meta-analysis found that there was no single clinical medical condition for which there was reliable evidence that homeopathy was effective.<sup>2</sup>

A large 2018 review of articles published in the Cochrane Database of Systematic Reviews, looked at one of the more common claims about homeopathic medicines; that they may play a role in preventing or treating

acute respiratory tract infections in children. According to this review, there was no evidence that these treatments were effective. Due to the quality of reporting of possible adverse effects of homeopathic treatments in the studies reviewed, the researchers were unable to draw any conclusions about the safety of these treatments.

5G Genocidal Technologies: Any and all 5G/AI Artificial Intelligence, DEW Directed Energy Weapons, Neurotech Nano, Scalar, Plasma Weapons, HAARP & Chemtrails, related to the 5G-Pandemic

Any and All governments, legislatures, public organizations, corporations, companies, entities, partnerships, individuals developing, financing, distributing, supporting, deploying, approving, promoting or otherwise facilitating the placement of 5G and above or similar facilities anywhere on planet Earth are hereby subject to a Notice of Liability as Issued with this Indictment and are deemed to be engaging in Genocide and Crimes Against Humanity

5G/AI Genocide Satellites and Any and all persons, partnerships corporations, and/or entities controlling, possessing or owning 5G and above/AI wifi or emf signal facilities, AI Artificial Intelligence or DEW Directed Energy Weapons, Neurotech Nano, Scalar, Plasma Weapons, HAARP & Chemtrails – wherever located. Whenever 5G/AI is stated herein, 5G/AI & above is referred to, for example: 6G/AI, 7G/AI, 8G/AI and above as developing.

NOTE: Tribunal research has shown that several of the Defendant government agencies such as the U.S. Department of Defense US DoD are actively launching and involved in Genocide and Crimes Against Humanity by both 5G deployment and vaccines development and deployment. Moreover, Defendants Bill and Melinda Gates are also actively engaged in Genocide and Crimes Against Humanity through 5G rollout funding and vaccines development and distribution, with the 5G funding being a new development of Bill and Melinda. The U.S. Federal Communications Commission (FCC) is active in Genocide and Crimes Against Humanity by both the 5G deployment and vaccine development and deployment. Hence many US Governmental agencies listed here as Defendants are Genocide and Crimes Against Humanity Defendants by both 5G and vaccination development and deployment. including and not limited to:

Federal Communications Commission FCC, USA

OFCOM UK <https://www.ofcom.org.uk/>

International Commission on Non-Ionizing Radiation Protection

Official Communications Regulators of All Nations Approving Roll-out of

O2

Center for Strategic and International Studies (CSIS)

Strategic Communications Laboratories (SCL)

These Defendant Head of Government prime ministers did during the first quarter of year 2018 meet and decided to speed up the implementation of 5G in the Nordic countries, that without any proper risk assessment. The Finish president has spoken out that Finland would be the country where 5G is implemented sonner than in any other country.

- Prime ministers Stefan Löfven from Sverige
- Prime ministers Katrín Jakobsdóttir from Island
- Prime ministers Lars Løkke Rasmussen from Danmark
- Prime ministers Juha Sipilä from Finland
- Prime ministers Erna Solberg from Norge

These Defendant 5G-associations/committees neglected the health risks from 5G:

- ICNIRP (International Commission on Non-Ionizing Radiation Protection (ICNIRP))
- SCENIHR: Scientific Committee on Emerging and Newly Identified Health Risks (a European Union Committee)
